

EMERGENCY CONTACT INFORMATION

Since it is difficult to think clearly when an accident or injury has occurred, it is wise to complete this Emergency Contact Information sheet and post it in a conspicuous place near your telephone. Having this information readily available is a safety precaution that could save a life in the event of an emergency!

If fire or explosion has occurred or is imminent, immediately leave the premises!

Take this list with you and then call emergency services from a safe location.

MSDS INFORMATION

SAFETY – Material Safety Data Sheet (MSDS) are designed to provide chemical, physical, health, and safety information on reagents and supplies used by HOL. While all experiments in HOL LabKits are micro-scale or small-scale, which reduces most potential risks, unforeseen risks may still exist. The need to prevent injuries and accidents cannot be over-emphasized! No chemicals should be mixed or used other than as directed in the Lab Manual which accompanies the kit. Make sure to store the kit out of the reach of children and pets. Thoroughly read and review the Basic Safety information in your Lab Manual, the MSDS information, and sign the Safety Contract. Make sure to wear the proper protective equipment and clothing.

Detailed MSDS information is available on the HOL website: www.HOLscience.com

PERSONAL PROTECTION

VENTILATION SYSTEM:

A system of local and/or general exhaust is recommended to keep exposures below the Airborne Exposure Limits.

SKIN PROTECTION:

Wear protective clothing, gloves, lab coat or apron, as appropriate, to prevent skin contact.

EYE PROTECTION:

Use chemical safety glasses or goggles.

GENERAL EMERGENCY FIRST AID MEASURES

INHALATION:

Remove to fresh air. If not breathing, give artificial respiration. Call a physician immediately.

INGESTION:

DO NOT INDUCE VOMITING unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. medical advice.

SKIN CONTACT:

In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Call a physician for medical advice.

EYE CONTACT:

Check for and remove contact lens. Immediately flush eyes with gentle but large stream of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Call a physician immediately.
