
Required Lab Materials for Purchase

<i>Lab</i>	<i>Additional Materials You Supply</i>
<i>Getting Started</i>	Pen/Pencil and Paper
<i>Laboratory Safety</i>	Pen/Pencil
<i>Math and Graphing Prep</i>	Access to a printer, Calculator, Camera, digital or smartphone Pen/Pencil, Sheet of white paper, Graphing software Optional: Box of colored pencils or markers
<i>Laboratory Techniques and Measurements</i>	Aluminum pie pan, Bottle of distilled water, Box of matches or lighter, DVD or CD, Dime, Fork, Isopropyl (rubbing) alcohol (C_3H_8O), 91%, Key, Pair of scissors, Pen/Pencil, Penny, Plastic cup, Quarter, Sheet of white paper, Source of ice cubes, Source of tap water, Spoon, White granulated sugar ($C_{12}H_{22}O_{11}$)
<i>Chromatography of Food Dyes</i>	Bottle of distilled water, Box of toothpicks, Camera, digital or smartphone, Pair of scissors, Pencil, Stapler, Table salt (NaCl) Tape: clear, duct, or masking
<i>Observations of Chemical Changes</i>	Aluminum pie pan, Bottle of distilled water, Box of matches or lighter, Box of toothpicks, Dish soap, Pair of scissors, Pair of sunglasses, Roll of paper towels, Sheet of black paper (or black tablecloth), Sheet of white paper, Source of tap water, Sunlight
<i>Chemical Reactions</i>	Aluminum foil, Bottle of distilled water, Box of toothpicks, Dish soap, Drinking glass, Pair of scissors, Roll of paper towels, Roll of toilet paper, Set of measuring spoons, 1 Tbsp. and 1/4 tsp., Sheet of white paper, Source of tap water, Table salt (NaCl)
<i>Limiting Reactants</i>	Roll of paper towels, Pair of scissors, Plastic cup, Sheet of white paper
<i>Solutions and Dilutions</i>	Camera, digital or smartphone, Cups, clear plastic or glass, Kool-Aid® drink mix or similar brand (dark color preferred), Measuring cup(s) 1/3 cup, 1/2 cup, 3/4 cup, and 2 cups, Measuring spoon, 1/2 tsp, Pen/Pencil, Permanent marker, Large pitcher or bowl, Spoon, Tape: clear, duct, or masking, White granulated sugar ($C_{12}H_{22}O_{11}$), 1/2 cup
<i>Hess's Law</i>	Bottle of distilled water, Roll of paper towels, Source of tap water, Stopwatch, timer, or watch with a second hand
<i>Titration for Acetic Acid in Vinegar</i>	Bottle of distilled water, Dish soap, Pair of scissors, Roll of paper towels, Sheet of white paper, Source of tap water, Textbook The procedure requires 2-6 thick textbooks.
<i>Molecular Modeling and Lewis Structures</i>	Camera, digital or smartphone, Pen/Pencil, Sheet of white paper
<i>Boyle's Law</i>	Bathroom scale, Calculator, Textbooks The procedure requires 5 hardcover textbooks approximately equal in weight.
